EDUCATION

Shri Shankaracharya Professional University
Computer Science Bachelor of Computer Applications (BCA)

Bhilai, Durg
2022 - 2025

SKILLS

Programming Languages: JavaScript, Python, C++, Java, HTML5, CSS3, C
Libraries/Frameworks: Node.js, Express.js, MongoDB, React.js, Tailwind, Bootstrap
Tools / Platforms: Git, GitHub, VS Code, Postman
Databases: SQL, MongoDB

PROJECTS / OPEN-SOURCE

QuickChat | Link *Node, React, MongoDB, Express, Socket.io, Zustand, Tailwind, DaisyUI*

A real-time chat application designed to enable seamless communication between users.

- Developed using **React** for the frontend, ensuring a responsive and user-friendly interface.
- Styled with **Tailwind CSS** and **Daisy UI** to provide a modern and clean look.
- Managed application state using **Zustand**, ensuring efficient state handling across components.
- Powered by a **Node.js and Express** backend, providing a robust server architecture.
- Utilized **MongoDB** for storing user data and chat history securely.
- Integrated **Socket.io** for real-time bidirectional communication between users.

Weather App | Link *React, CSS3, JavaScript, OpenWeatherAPI*

A weather application providing real-time weather updates along with date and time information.

- Built using **React** to create a dynamic and responsive user interface.
- Styled with **CSS** for a clean and intuitive design.
- Integrated **OpenWeatherMap API** to fetch real-time weather data for any location.
- Displayed **current date, time, day, month, and year** to enhance user experience.
- Implemented a **search feature** allowing users to check weather conditions for any city.
- Showcased skills in **API integration, React component design, and handling real-time data.**

Quizzzy | Link *JavaScript, Trivia API, CSS3, HTML5*

An interactive quiz application designed to test users' knowledge across various topics.

- Built using **HTML, CSS, and JavaScript** for a smooth and responsive experience.
- Features dynamic question fetching from the Open **Trivia Database API**.
- Lets users choose **category, difficulty, and question count** before starting the quiz.
- Implemented **timer** for each question to keep users engaged and challenged.
- Demonstrates skills in **API integration** and dynamic **UI design**.

Portfolio | Link *React, CSS3, Axios, JavaScript*

A visually stunning portfolio website to showcase projects, skills, and personal journey.

- Built with **React, CSS, and JavaScript**, focusing on **modern UI/UX**.
- Uses **react-slick** for project slider and **smooth-scroll** for navigation.
- Fully **responsive**, ensuring smooth performance on all devices.
- Contact form handled via **getform.io** with complete validations.
- Demonstrates **creative UI design** and **React expertise**.
